**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE THREE MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on November 13, 2006 has been entered.

### ***Preliminary Remarks***

2. PLEASE TAKE NOTICE that the examiner handling this application has changed. The new examiner is *Jerry O'Connor*. The Group Art Unit number is unchanged and is still 3627.

3. This Office action responds to the amendment and arguments filed by applicant on November 13, 2006 in reply to the previous Office action on the merits, mailed July 12, 2006.

4. The amendment of claims 1 and 13 by applicant in the reply filed on November 13, 2006 is hereby acknowledged.

5. The cancellation of claims 34-36 by applicant in the reply filed on November 13, 2006 is hereby acknowledged.

6. Applicant's intention appears to have been for claims 7-9 to depend from claim 1, rather than cancelled claim 6, which changes will be assumed for further consideration of the claims as to the merits, hereinbelow.

***Claim Rejections - 35 USC § 103***

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 1, 4, 5, 7-9, 13, 32, 33, and 37-43 are rejected under 35 U.S.C. 103(a) as being unpatentable over Li (US 6,609,050), in view of Moore (US 6,370,454).

Li discloses scanning a vehicular identifier on a vehicle [VIN 300]; transmitting the identifier over a wireless communications link, retrieving the data associated with the VIN in a memory device [C7, ~ L9-L13] and generating a repair order from the data (see "Work Order" in Figure 20); displaying the repair order on a portable device 80 in Figure 20 which shows the "Work Order;" querying a database (querying 93), but Li does not directly disclose using a PDA to obtain current vehicle mileage and other PDA associated steps.

However, Moore discloses obtaining current vehicle mileage with a personal digital assistant [C10, L3-8]; transmitting said data (synchronizing the data throughout the various

locations [C10, L11-14] in order to provide a proactive method of maintaining an engine on a vehicle.

Therefore it would have been obvious to a person having ordinary skill in the art at the time the invention was made to modify Li as taught by Moore to include Moore's use of a PDA in Li's system so that the average person can obtain a complete diagnostic on an automobile in the convenience of their home garage thereby allowing a do-it-yourselfer to save money instead of hiring a professional mechanic to obtain the diagnostics.

#### *Response to Arguments*

9. Applicant's arguments filed November 13, 2006 have been fully considered but they are not deemed persuasive.

10. Regarding the arguments against the references individually, one cannot show nonobviousness by attacking references individually where the rejections are based on combinations of references. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981); *In re Merck & Co.*, 800 F.2d 1091, 231 USPQ 375 (Fed. Cir. 1986).

11. Regarding the argument that Li does not disclose selecting at least one service item from said service list defined by the current vehicle mileage, the vehicle service history, scheduled maintenance, manufacturer recall, and available service campaigns, the argument is moot for

being non-responsive to the rejection, since the rejection explicitly stated as much and addressed the stated deficiency.

***Conclusion***

12. The prior art made of record and not relied upon is considered pertinent to the disclosure.

13. All rejected claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

14. Any inquiry concerning this communication, or earlier communications, should be directed to the examiner, **Jerry O'Connor**, whose telephone number is **(571) 272-6787**, and whose facsimile number is **(571) 273-6787**.

Official replies to this Office action may now be submitted electronically by registered users of the EFS-Web system. Information on EFS-Web tools is available on the Internet at: <http://www.uspto.gov/ebc/portal/tools.htm>. An EFS-Web Quick-Start Guide is available at: <http://www.uspto.gov/ebc/portal/efs/quick-start.pdf>.

Alternatively, official replies to this Office action may still be submitted by any *one* of fax, mail, or hand delivery. **Faxed replies should be directed to the central fax at (571) 273-8300.** Mailed replies should be addressed to "Commissioner for Patents, PO Box 1450, Alexandria, VA 22313-1450." Hand delivered replies should be delivered to the "Customer Service Window, Randolph Building, 401 Dulany Street, Alexandria, VA 22314."
